

Akshaya Apollo Hospital Ahmedabad, India

Client: Apollo Hospitals
Ahmedabad, India

Scope: 560,000 sq. ft. Hospital
7,700 sq. ft. Central Plant

This new medical center is part of the Apollo Hospitals Group in India and Sri Lanka. Inaugurated in May, 2003 it establishes a multi-specialty tertiary care hospital in the northwestern region of Gujarat.

The hospital accommodates 500 patient beds, including more than 100 ICU beds and 50 OB/GYN beds. The hospital provides healthcare services in 52 medical specialties including cardiology, oncology, orthopedics and neurology. It has seven operation theaters, an emergency and trauma center, imaging services, food service, cafeteria, laundry services, pharmacy, laboratories and materials management.

The central plant contains equipment to provide steam, chilled water, medical gases, vacuum and compressed air to the hospital.
