

Deerfields Town Square

Abu Dhabi, UAE

Client: Deerfields Town Square LLC
Abu Dhabi, UAE

Deerfields Town Square is a top quality themed shopping mall located in the Al Bahia region of Abu Dhabi.

Scope: 95,000 m2 building

The 95,000 m2 building is a testament to the engineers' bold and innovative design and engineering capabilities. The design requires specialized engineering solutions to accommodate the expansive open spaces, large floor to ceiling heights and clear-storey glazing along the central areas of the mall, all of which create a sense of openness and bringing natural light into the retail areas.

As the lead designer, our project delivery strategy and fast track design has allowed an early start on site. With its one-stop shop approach, the structural, mechanical and electrical teams have ensured a seamless and integrated approach to design and delivery for this client and a project with an accelerated construction schedule.
