

DEWA Solar Innovation Centre Dubai, United Arab Emirates

Client: Dubai, UAE

Scope:

Budget:

Completion:

The DEWA “Solar Innovation Centre” will be a science convention and visitors centre, showcasing the Mohammed bin Rashid Solar Park and its facilities highlighting it as part of Dubai Integrated Energy Strategy 2030. The centre will be host to Solar Technologies, its history, application and evolution as an essential energy generator. The Innovation Centre will portray a “green” Dubai, to be a leading example of sustainable development at regional and international level supporting the use of renewable resources. The centre will be able to celebrate and narrate the potential of solar power and renewable energy.
