

Kaiser Permanente Northern California Regional Laboratory Richmond, California

Client: Kaiser Foundation Health Plan, Inc.
Oakland, California

This new state-of-the-art laboratory supports care to more than 3 million Kaiser Permanente members visiting more than 60 patient facilities across Northern California.

Scope: 70,000 Laboratory Tenant
Improvement

The 70,000 sq. ft. lab will be the central processing and high volume testing site for toxicology, immunochemistry, automated chemistry, hematology, coagulation, non-transfusion immunohematology, and flow cytometry.
