

Kaiser Permanente Stockton Medical Center Stockton, California

Client: Kaiser Foundation Health Plan, Inc.
Oakland, California

Scope: Medical Office Building, 140,000 sq. ft.
Ancillary Building, 62,000 sq. ft.
Central Plant, 10,000 sq. ft.
Urgent Care Remodel, 3,000 sq. ft.

Construction of the 140,000 sq. ft. medical office building, 62,000 sq. ft. ancillary building and 10,000 sq. ft. central plant was the first phase of this projected \$100 million facility on a 26-acre site. The medical office building accommodates 70 physicians and includes services in adult medicine, pediatrics, obstetrics/gynecology, urology, dermatology, physical therapy, endocrinology, infectious diseases, nephrology, cardiology, rheumatology, general surgery, neurology, ophthalmology, optometry and pharmacies. The ancillary building includes five surgery units, patient recovery rooms, a radiology suite and laboratory.
