

Lamar Tower

Jeddah, Saudi Arabia

Client: General Civil Aviation Authority

Scope: 415,000 m2 Dual Tower

The unique, 415,000 m2 dual-tower developments is located at the Jeddah Waterfront Precinct, and with its distinctive angular geometries the project is certain to be a landmark location on the city's developing shoreline.

The mixed-use complex consists of a multi-level podium housing restaurants, a retail mall, health spa and recreational centre, and allows direct access to the commercial office zones above.

The striking tower forms surround the residential component in a 'V' shaped footprint adopted to allow all apartments a panoramic Red Sea view.
