

Lodi Memorial Hospital

Lodi, California

Client: Lodi Memorial Hospital
Lodi, CA

The new, 4-story South Wing Hospital addition of 130,000 square feet replaces 90 patient bedrooms, the emergency and urgent care departments.

Scope: 4-story South Wing Hospital Addition and New Central Utility Plant, 130,000 sq. ft.

A new central plant replaces the existing chiller plant and medical gas utilities serving the entire campus. It houses emergency generators and domestic water heaters to serve the South Wing Addition.

Budget: \$60 million Construction Cost

The central plant can accommodate the future addition of heating water boilers, domestic water heaters, steam boilers, and emergency generators to serve the entire campus.

Completion: 2010
