

NOGA Headquarters Manama, Bahrain

Client: Edamah
Manama, Bahrain

NOGA is an iconic office tower located in Manama, Bahrain that will house the headquarters of the National Oil and Gas Authority in Bahrain as well as contain leasable office space.

Scope: Office Tower

The design uses a rotating octagon plan to create a highly articulated facade of triangular sunshades that reduce the energy load by reducing solar gain.

The design aesthetic blends references to Islamic geometric patterns with those of natural forms to symbolize the origins of oil, the most significant natural product of this region and NOGA's focus.
